FACULTY SENATE QUICK TAKES – NOVEMBER 4, 2026

Dear CSU Faculty, Chairs, and Dean's offices,

Here are the Senate "Quick Takes" from our November 4th meeting:

- UFAC brought two proposals. Classroom and related responsibilities had a first reading. Appointments of chairs, school directors, and deans had a lengthy discussion, primarily around chair eligibility, and was returned to the committee.
- UCC brought four new 90CH degree programs in Biology and Chemistry which were approved and will be sent to the Board of Trustees for consideration in November.
- President Bloomberg brought information about SB 461 which impacts the authority and autonomy of Civics Centers in Ohio.
- Provost Sridhar thanked faculty for showing up to the listening sessions, Viking Teach Week, and TedX Cleveland State University and asked us to also show up on January 6th for an all-faculty kick-off for the spring semester.
- We had a demonstration of what the Annual Performance Tool will look like in Workday and an introduction to the Credit for Prior Learning website.

For more information please go to the Faculty Senate Webpage where you can find our meeting dates, archived meeting minutes, the roster of current senators, and the list of committees and committee members. If you have questions or concerns, please raise them with your college senators or with the Faculty Senate leadership.

Best regards,

Jessica Bickel, Faculty Senate President
Brian Yusko, Faculty Senate Vice-President
Erin Avram, Faculty Senate Secretary
