

SOCIETY OF PHYSICS STUDENTS (SPS) EVENT

Physics Department Spring Semester Welcome Party

Abstract:

SPS invites Physics Majors/Minors, University Honors Scholars, and all interested students to the Physics Spring Semester Welcome Party. Come to say hello to the physics faculty/staff and physics majors/minors. Find out about our programs (BS, BA in Physics, and Minor in Physics), physics research projects, and student employment opportunities. Learn about the Society of Physics Students (SPS) and become an active member.

Our short program will highlight multiple strengths of the Physics department. It will include: welcoming messages from the SPS president, Jessica Schwan and the department Chair, Dr. Miron Kaufman; short description of the departmental research and teaching interests; review of summer physics-related employment opportunities for students and (of course!) lots of pizza.

WHERE

SI – 117 (room next to the Physics
Computer Lab)

WHEN

Noon- 1pm
Thursday, January 24, 2008
