#### College / Program Notes:

The plan above is a suggested guide to ensure that all Core Curriculum, College, University, and Major requirements are met within 4 years of study. Students may deviate from the suggested placement of Core Curriculum courses.

\* General Electives ensure that a student accumulates the minimum credit hour totals needed for graduation. Students must have a **minimum of 120 total credit hours**, of which a **minimum of 24 credit hours must be upper division** (300 or 400-level courses). Depending upon other elective choices made, students may not need as many general electives as indicated above, or may need additional electives.

^Students must complete 6 semester of ensembles. Each of the following 4 MTX ensembles must be successfully completed at least once: MTX 150, 151, 152, 153. For the remaining 2 ensembles, students may take MUS ensembles or repeat MTX ensembles of their choice.

\*\*MTX 290 is no longer being offered. Students are advised to take MTX 190 as a substitution.

\*\*\*MTX 425 Music Therapy Internship is completed after all coursework and typically lasts 6 months. Students must register for MTX 425 during each semester interning.
